A Letter from the Future

Write a letter from the future, imagining that your most important commitments have come true and the year has been a great success. Write it to someone meaningful to the work or to you personally.

What does life look like? Who has benefited from this success? What is the impact on your work, on those around you, and on your daily routine?

- Take no more than 10 minutes.
- Share your letter with the members of your group.
